

# Purekeys Product Overview

## Easy and quick to disinfect, Maximum typing comfort

Purekeys manufactures easy to disinfect keyboards and mice for use in all medical environments. All Purekeys medical keyboards combine a completely flat top with the tactile feedback of a normal keyboard. The flat top surface is made of a high grade silicone rubber and can be cleaned with any hospital grade disinfectant. With cleaning time less than 5 seconds, best practice to clean between patients can be easily achieved.

## 401 Series

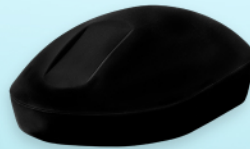

### Compact with Touchpad

This keyboard with touchpad is useful in places where using a mouse is not possible or not preferred. The touchpad supports 'two finger gestures' and can be used with medical gloves.

#### Compact with Touchpad 40100100:

- L/W/H 378×164×36 mm; Weight: 850 g
- USB cable: 1.8 m, Plug & Play
- Touchpad: 75×80 mm with two-finger gestures (Windows 10/11)
- 87 keys
- Fixed 6-degree working angle
- 3 Dedicated mouse buttons with micro switches for tactile feed-back
- Certified according to EN60601-1-2

## Medical Mice

Purekeys hygienic mice have a silicone cover that makes them easy to clean. The 'touchscroll' gives you the ability to scroll like you would on a regular mouse.

#### Mouse with USB Cable:

- Disinfectable mouse, IP66
- Optical sensor
- TouchScroll
- USB cable: 1.8 m
- Certified according to EN60601-1-2

50065 White

#### Wireless Mouse:

- Disinfectable mouse, IP66
- Optical sensor
- TouchScroll
- USB wireless receiver
- 2× AAA batteries included

50075 White

50275 Black

#### Mouse Pads:

- White / Black
- 215×178×2 mm

These mouse pads are made of flexible silicone and specifically designed for Purekeys mice, providing improved sensor accuracy on glass or other reflective surfaces.

## Tactile Feedback

All Purekeys medical keyboards provide tactile feedback from real keys, ensuring a comfortable and responsive typing experience.

## Dedicated Key Lock

The dedicated key lock button disables input during cleaning, preventing accidental keystrokes without the need to unplug the keyboard.

## Flat surface

The fully flat surface prevents debris accumulation and allows for complete cleaning in a single wipe, unlike low-profile medical keyboards that still have small gaps between keys.

## Cleaning without disrupting workflow

Quick cleaning in under 10 seconds allows users to clean more frequently without workflow disruption, leading to better hygiene and reduced contamination risks.

## Robust & Reliable

The top surface is made of high-quality silicone, designed to withstand all medical cleaning solutions and frequent cleaning throughout the day.

## Regional and custom keyboard layouts available

Purekeys medical keyboards are available in various regional layouts. Available layouts include: US-International, Belgium, France, Spain, Italy, Switzerland/Luxembourg, UK/Ireland, Germany, Latin America, Scandinavia, Arabic, Hebrew, and Slovenia.

Custom layouts are available upon request.
